CAREER SUMMARY

An Expert Front-End Web Developer with over 4 years of experience in designing, developing, and optimizing websites, specializing in UI/UX design and implementation. Proficient in JavaScript, React.js, Bootstrap, and WordPress, with expertise in website front-end development, design & content management system (CMS), creating mockups and translating them into functional, user-friendly web applications. Experienced in collaborating with cross-functional teams to enhance website performance, security, and responsiveness. Holds a Master's in Data Science from TU Dortmund University and a Master's in Computer Science from the University of South Asia.

EMPLOYMENT

UI/UX Developer | Contabo | Aug 2024 - Continuing

- Collaborating with the Web Team to enhance and optimize digital presence through improved functionality and user engagement
- Designing and implementing reusable frontend components, streamlining development processes and ensuring project consistency
- Integrating Payload, a headless CMS, for efficient content management and seamless delivery within web applications.
- Developing modern, user-centric UI designs, transitioning from outdated mockups to enhance user experience.
- Partnering with the Backend Team to ensure smooth integration of frontend components with server-side logic and databases.
- Identifying and resolving web performance bottlenecks in collaboration with the Web Performance Team, optimizing load times and user interactions

Web Designer | Stellen-Kombi GmbH | Sep'23 - Continuing

- Collaborated with a team of 5 to design and develop high-quality websites.
- Customized WordPress from scratch, building templates per client requirements.
- Managed website updates, bug fixes, and redesigns, ensuring performance optimization.
- Designed and maintained e-commerce sites, handling database and server integration.
- Ensured website security, responsiveness, and cross-device compatibility, while staying updated on WordPress trends

Frontend Web Development & Designer | Rheinduett GmbH | Dec'22 - Aug'23

- Developed frontend components and websites using React.js and WordPress based on client requirements.
- Customized WordPress templates and created new ones to meet customer needs.
- Analyzed client needs and target audiences to deliver tailored web solutions.

Internship - Frontend Web Development | Brinnest GMBH | Nov'22

- Completed 4 weeks duration Industrial Training on Front-end Web Development where developed HTML, CSS, JavaScript, and Es6 skills and facilitated significant numbers of professional training

Junior Web designer | Wallz BD | 2019 - 2020

- Managed website development, customization, updates, and performance optimization for an e-commerce business.
- Ensured smooth user experience and data security through UX analysis, bug fixes, and security monitoring.
